

## Declaration of Compliance regarding food contact

We declare that our product

**BINGOLD Nitril ECO, white, article no.: 634801 - 634804**

complies with the following legal requirements in their current valid version:

- (EC) 1935/2004 including traceability
- (EC) 10/2011
- (EC) 2023/2006 about good manufacturing practice
- BfR Recommendation XXI for rubber products intended to come into contact with foodstuffs
- German LFGB esp. § 30/31 (LFGB)

The global migration was tested under the following conditions:

Simulant	time	temperature	Results [mg/dm <sup>2</sup> ]	Limit acc. to 21. BfR recommendation
3% Acetic acid	2 h	40°C	8,1	50 mg/dm <sup>2</sup> · thereof max. 10 mg/dm <sup>2</sup> organic matter
10 % Ethanol	2 h	40°C	<3,0	10 mg/dm <sup>2</sup>
Olive oil	2 h	40°C	<3,0	10 mg/dm <sup>2</sup> *

\*: Currently there is no specific limit for fatty simulants in the 21. BfR recommendation. It is oriented to the limit value for plastics.

The limits stated above are maintained under the specified conditions.

The requirements laid down in article 3 of the regulation 1935/2004 are maintained. The product does not change the composition of a food and also not the organoleptic characteristics.

Only raw materials (basic materials, auxiliaries, additives) listed in the positive list of the 21. BfR recommendation are used.

The product is suitable for the following applications:

Types of food to be intended to come into contact with the glove:

***all types of food***

Types of food not to be intended to come into contact with the glove:

***No limitation***
